

Year 3 Recorders

This term year 3 are learning to play the recorder. We have learnt how to hold our recorders and how to produce the best sound. We are learning how to read music on the stave and what the different notes mean. We are playing along with backing tracks and sometimes playing a solo. I am already blown away with the talent in year 3!

If you'd like to purchase your own recorder I'd recommend getting a brand that is known for producing good recorders such as Yamaha, Aulos or Nuvo. You get what you pay for basically and it can really help with tuning and quality of sound.

We have been listening to lots of different recorder players, from classical artists to recorder orchestras playing Queen songs
